

Safety, Operation, and Maintenance Manual for

Powr-Flite®

SELF-CONTAINED CARPET EXTRACTORS
Models PFX3S, PFX7S, PFX9S

Powr-Flite®
COMMERCIAL FLOOR CARE EQUIPMENT

A Tacony Company

3101 Wichita Court • Fort Worth, TX 76140

Read and follow all instructions,
warnings and cautions before
using this self-contained extractor!

READ ALL INSTRUCTIONS BEFORE USING!

Congratulations on purchasing a Powr-Flite® self-contained extractor. Given proper care, this product will afford you many years of trouble-free operation. All parts have passed rigid quality control standards before being assembled to produce the finished product.

Prior to packaging, the extractor is again inspected for assurance of flawless assembly. This unit is protectively packed to prevent damage in shipment. We recommend removal and inspection of unit upon delivery for possible damage in transit. Only a visual examination will reveal damage that may have occurred.

If damage is discovered, immediately notify the transportation company that delivered your extractor. As a shipper, we are unable to report claims for concealed damage. You must originate any claim within 5 days of delivery.

This manual is for your protection and information. **PLEASE READ CAREFULLY** since failure to follow precautions could result in discomfort or injury. When using electrical equipment, basic safety precautions should always be followed.

THANK YOU FOR CHOOSING POWR-FLITE®!

CARE OF THIS SELF-CONTAINED EXTRACTOR

Treat this unit as you would any other high grade precision made product. Dropping, unreasonable bumping across thresholds and other misuses may result in a damaged unit which will not be covered by warranty. When not in use, power cord should be wrapped around handle for storage.

Read this manual completely before operating this extractor. It is important to follow instructions in this manual to prevent the possibility of injury or damage to the user and/or machine.

IMPORTANT SAFETY PRECAUTIONS

WARNING! To reduce the risk of fire, electric shock, or injury

WARNING

To avoid fire, **DO NOT** use with a flammable or combustible liquid to clean floor.

WARNING

To avoid electric shock, **DO NOT** expose to rain. Store Indoors.

When using this self contained extractor, basic precautions should always be followed, including the following:

- 1) **DO NOT** leave unit when plugged in. Unplug from outlet when not in use and before servicing.
- 2) **DO NOT** allow unit to be used as a toy. Close attention is necessary when used around or near children.
- 3) Use only as described in this manual. Use only manufacturer's recommended attachments.
- 4) **DO NOT** use with damaged cord or plug. If unit is not working properly because it has been dropped, dropped into water, left outdoors, or damaged in any way, contact a service center of Powr-Flite®.
- 5) **DO NOT** pull or carry by cord, use cord as a handle, close door on cord, or pull cord around sharp edges or corners. **DO NOT** run unit over cord. Keep cord away from heated surfaces.
- 6) **DO NOT** unplug by pulling on cord. To unplug, grasp the plug, not the cord.
- 7) **DO NOT** handle plug or appliance with wet hands.
- 8) **DO NOT** put any objects into openings. **DO NOT** use with any opening blocked: keep free of dust, lint, hair, or anything that may reduce air flow.
- 9) Keep hair, loose clothing, fingers, and all parts of body away from openings and moving parts.
- 10) **DO NOT** pick up anything that is smoking or burning such as cigarettes, matches, or hot ashes.
- 11) **DO NOT** use to pick up hazardous chemicals.
- 12) Turn off all controls before unplugging.
- 13) Turn unit off immediately if foam or liquid comes from machine exhaust. Empty & clean out recovery (dirty) tank and use defoamer to correct the problem.
- 14) **DO NOT** use to pick up flammable or combustible liquids such as gasoline or use in areas where they may be present.
- 15) **DO NOT** use where oxygen or anesthetics are used.
- 16) **DO NOT** use an extension cord unless absolutely necessary. If an extension cord is used, then wire size must be #14 or larger and should not exceed 25 ft. in length. Extension cord must be a three-wire type to insure grounding protection.
- 17) Replace damaged or worn parts immediately with genuine original equipment parts to maintain safety.
- 18) This unit must be connected to a properly grounded outlet only. See grounding instruction.

MEDIDAS DE SEGURIDAD

PELIGRO! Para reducir el riesgo de incendio, descarga eléctrica o daño:

NO SE exponga a la lluvia a guarde bajo techo. Una sacudida eléctrica puede suceder si se usa en superficies húmedas.

NO utilice la unidad para levantar líquidos inflamables o combustibles como gasolina.

PARA SU SEGURIDAD

- 1) **NO DEJE** la aspiradora enchufada. Desconéctela cuando no la use y antes de darle servicio.
- 2) **NO PERMITE** que se use como juguete. Ponga atención cuando se use cerca de niños.
- 3) **USE SE SOLAMENTE** de acuerdo a las instrucciones y con accesorios recomendados por el fabricante.
- 4) **NO USE** con el cable o clavija dañados. Si la unidad ha sido golpeada, mojada, o dañada en algún modo llame al centro de servicio o Power-Flite®.
- 5) **NO JALE** o cargue el cable, no machuque el cable o lo estire sobre objetos filosos. **NO USE** la unidad sobre el cable.
- 6) **NO DESENCHUFE** jalando el cable. Para hacerlo jale de la clavija no del cable.
- 7) **NO TOME** la clavija o el aparato con las manos mojadas.
- 8) **NO TAPE** objetos en las ventilas. **NO USE** si alguna está tapada. Mantenga limpia de polvo, pelusa o cualquier obstrucción.
- 9) Mantenga el pelo, ropa suelta manos y partes del cuerpo lejos de las aberturas y partes móviles.
- 10) **NUNCA** aspire objetos que mandose o humeando como cigarrillos, cerillos o cenizas calientes.
- 11) No use unidad a recoje materiales peligrosas.
- 12) Apague todos los controles antes de desconectar.
- 13) Paga las unidades inmediatamente si hay espuma o líquidos saliendo de bajo de la unidad. Si esto para limpia el tanque y también usa un químico de espuma.
- 14) **NO UTILIZE** la unidad para levantar líquidos inflamables o combustibles como gasolina; o use en áreas donde se encuentren estos líquidos.
- 15) Reemplacen las partes gastadas o dañadas inmediatamente para mantener la seguridad.
- 16) Esta unidad debe ser conectada a un enchufe correctamente aterrizado solamente. Vea los instrucciones de tierra. Si su aspiradora/soplador tiene un enchufe para una boquilla de potencia, apáguela siempre antes de conector o desconectar la goquilla.
- 17) **NO USE** donde oxígeno o anestésicos sean empleados.
- 18) **NO USE** extensión eléctrica mas que cuando sea absolutamente necesario. Si usa extensión, el cable debe de ser calibre #14 o mayor y no debe exceder 50 pies de longitud. El cable extensión debe ser de 3 polos para asegurar protección de tierra.

INSTRUCCIONES DE TIERRA

¡PELIGRO!

Una conexión incorrecta de tierra puede resultar en una descarga eléctrica. Consulte con un electricista calificado o persona de servicio si tiene duda acerca del enchufe y su tierra. No modifique el enchufe de las unidades. Si no encaja en el enchufe, haga instalar un enchufe apropiado por un electricista calificado.

IMPORTANTES MEDIDAS DE SEGURIDAD

AVERTISSEMENT! Pour réduire les risques d'incendie, de choc électrique ou de blessure:

NE PAS aspire de matières humides. Ne pas exposer à l'intérieur.

NE PAS utiliser l'appareil avec des liquides inflammables en aspirant afin d'éviter du feu.

POUR VOTRE SÉCURITÉ

- 1) **NE PAS** laisser l'appareil sans surveillance lorsqu'il est branché. Débrancher lorsque l'appareil n'est pas utilisé et avant l'entretien.
- 2) **NE PAS** permettre aux enfants de jouer avec l'appareil. Une attention particulière est nécessaire lorsque l'appareil est utilisé par des enfants ou à proximité de ces derniers.
- 3) N'utiliser que conformément à cette notice avec les accessoires recommandés par le fabricant.
- 4) **NE PAS** utiliser si le cordon ou la fiche est endommagé. Retourner l'appareil à un atelier de réparation s'il ne fonctionne pas bien, s'il est tombé ou s'il a été endommagé, oublié à l'extérieur ou immergé.
- 5) **NE PAS** tirer, soulever ou traîner l'appareil par le cordon. **NE PAS** utiliser le cordon comme une poignée, le coincer dans l'embrasure d'une porte ou l'appuyer contre des arêtes vives ou des coins. **NE PAS** faire rouler l'appareil sur le cordon. Garder le cordon à l'écart des surfaces chaudes.
- 6) **NE PAS** débrancher en tirant sur le cordon. Tirer plutôt la fiche.
- 7) **NE PAS** toucher la fiche ou l'appareil lorsque vos mains sont humides.
- 8) **NE PAS** utiliser des rallonges ou des prises qui n'ont pas de capacité suffisante pour transporter le courant.
- 9) **NE PAS** utiliser où l'oxygène ou les gazes sont utilisés.
- 10) **N'INSÉRER** aucun objet dans les ouvertures. **NE PAS** utiliser l'appareil lorsqu'une ouverture est bloquée. S'assurer que de la poussière, de la peluche, des cheveux ou d'autres matières ne réduisent pas le débit d'air.
- 11) Maintenir les cheveux, les vêtements amples, les doigts et toutes les parties du corps à l'écart des ouvertures et des pièces mobiles.
- 12) **NE PAS** aspirer de matières en combustion ou qui dégagent de la fumée, comme des cigarettes, des allumettes ou des cendres chaudes.
- 13) **NE PAS** utiliser l'aspirateur pour soulever les produits chimiques dangereux.
- 14) Mettre toutes les commandes à la position ARRÊT avant de débrancher l'appareil.
- 15) Couper le courant immédiatement si le liquide de nettoyage sort de l'appareil. Videz et nettoyez le réservoir interrim et admettez le liquide de nulle écume.
- 16) **NE PAS** aspirer des liquides inflammables ou combustibles, comme de l'essence, et ne pas faire fonctionner dans des endroits où peuvent se trouver de tels liquides.
- 17) Remplacez taré parties vite à maintenir sécurité.
- 18) Ne brancher qu'à une prise de courant avec mise à la terre. Voir les instructions visant la mise à la terre.

INSTRUCTIONS VISANT LA MISE À LA TERRE

AVERTISSEMENT!

Un conducteur de terre mal raccordé peut entraîner un risque de choc électrique. Consulter un électricien ou un technicien d'entretien qualifié si vous n'êtes pas certain que la prise soit correctement mise à la terre. Ne pas modifier la fiche fournie avec l'appareil-se elle ne peut être insérée dans la prise, faire installer une prise adéquate par un électricien qualifié.

GROUNDING INSTRUCTIONS

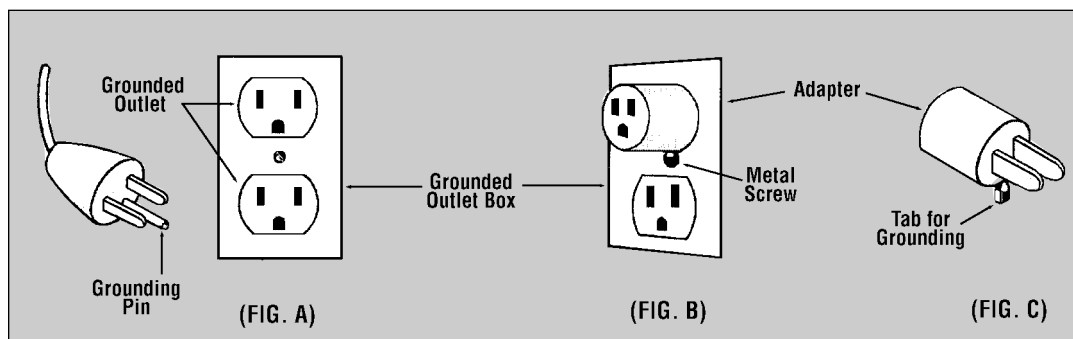

DANGER: Improper use of the grounding plug can result in a risk of electric shock.

GROUNDING INSTRUCTIONS

This self-contained extractor must be properly grounded. If it should malfunction or breakdown, grounding provides a path of least resistance for electrical current to reduce the risk of electric shock. This machine is equipped with a cord having an equipment-grounding conductor and grounding plug. The plug must be inserted into an appropriate outlet that is

properly installed and grounded in accordance with all local codes and ordinances. If repair or replacement of the cord or plug is necessary, **DO NOT** connect the grounding wire to either flat blade terminal. The wire with insulation having an outer surface that is green with or without stripes is the grounding wire.

GROUNDING METHODS

This unit is for use on a nominal 120 volt circuit, and has a grounded plug that looks like the plug illustrated in (Fig. A). A temporary adapter that looks like the adapter illustrated in (Fig. B&C) may be used to connect the plug to a 2-pole receptacle as shown in (Fig. B) if a properly grounded outlet is not available.

The temporary adapter should be used only until a properly grounded outlet (Fig. A) can be installed by a qualified electrician. The green color rigid ear, lug, or the like extending from the adapter must be connected to a permanent ground such as a properly grounded outlet box cover. Whenever the adapter is used, it must be held in place by a metal screw.

NOTE: In Canada, the use of a temporary adapter is not permitted by the Canadian Electrical Code.

WARNING!

Improper connection of the equipment-grounding conductor can result in a risk of electric shock. Check with a qualified electrician or service person if you are in doubt as to whether the outlet is properly grounded. **DO NOT** modify the plug provided with the appliance. If it will not fit the outlet, have a proper outlet installed by a qualified electrician.

GENERAL INSTRUCTIONS

PRE-OPERATION INSTRUCTIONS

NOTE: (color fastness) Before using carpet cleaning chemicals, test on an inconspicuous part of the carpet for color fastness. Place the solution on a small piece of clean white material or tissue, then rub the carpet vigorously. Excessive amounts of dye showing on the material would indicate that the

FIG. 1A
PFX7S shown

- 1) Move the furniture around to give a clear working area. Cover bottoms of furniture legs where possible. (aluminum foil or foam blocks are ideal) Pin up curtains and drapes.
- 2) Have a suitable size clean bucket available for filling the solution tank with warm water. **CAUTION:** - Do not add the cleaning agent at this stage
- 3) Adjust the machine brush operating depth with the knob on the back of models PFX 7S & 9S (**FIG. 1A**) and the front of PFX4S (**FIG. 1B**) to suit the carpet height. **NOTE:** The raised counter clockwise position of the knob should be used when the machine is being stored. **NOTE:** Excess brush contact may overload motor circuit breaker or reduce wet extraction quality.
- 4) Remove the transparent cover and remove the recovery tank below cover. (**FIG. 1A**)
- 5) Measure carpet cleaning solution such as Powr-Flite's Kold-Powr® per manufacturers recommended ratio into the clean water tank and fill with hot water from a very clean bucket. **DO NOT** use the waste tank to fill the solution tank as debris could damage the pump or block the jet. **WARNING:** **DO NOT** exceed 150° (65° C)
- 6) Replace recovery (dirty water) tank above solution tank. (**FIG. 1A**) Add defoamer solution per manufacturer's instructions as needed. 2 oz. Powr-Flite Powr-Defoamer®
- 7) Replace the transparent cover. Pull back handle to lock cover into place. (**FIG. 1A**) Treat heavily soiled areas by using traffic lane cleaner such as Powr-Flite's Fast Lane®.

OPERATION OF SELF-CONTAINED CARPET CLEANER

- 1) Plug main power cable (**FIG. 1A**) into outlet. **WARNING:** This machine must be properly grounded. See grounding instructions.
- 2) Press the master switch to the on position. Then press the vacuum switch on and the accessory/brush switch to the right. (**FIG 1C**)
- 3) Press and hold the solution switch (**FIG 1C**) to apply the cleaning solution. Pull the machine backwards at the same time to clean the carpet. Stop the solution spray about 12" (30cm) before the end so all of the solution is vacuumed up. Slightly overlap the next cleaning pass to prevent streaking. A two (2) wet pass maximum is recommended to avoid overwetting and one dry pass without solution spray will aid in drying time. After a few passes, check the waste tank to see that no foam is present. Add extra defoamer if necessary.
- 4) Make sure to empty the recovery (top) tank (**FIG. 1A**) when it is approximately 3/4 full. Do not refill the solution tank without emptying all the contents of the recovery tank first.

GENERAL INSTRUCTIONS

STORAGE

WHEN CLEANING IS FINISHED:

- 1) Connect the drain hose (clipped to the handle) to the solution fitting at the back of the machine and place the other end into the waste tank, turn on the accessory switch. **(FIG 1C)** This will pump the remaining solution into the waste tank for easy drainage.
- 2) To disconnect the solution hose, push in on the ring of the solution fitting. **(FIG 2)** Switch off the machine, remove power plug from the socket, and empty the waste tank. Leave waste tank open when storing.
- 3) Raise the brush to storage position.

ACCESSORIES / TOOLS (OPTIONAL)

For upholstery cleaning and inaccessible areas. Remove the white cuff from the transparent cover **(FIG 1A)** and connect the accessory vacuum hose in its place. Connect the accessory solution hose to the solution fitting at the back of the machine by pushing back the locking ring to fit. **(FIG 2)** Then press vacuum switch & press the accessory/brush switch to the left **(FIG 1C)** and the wand or upholstery tool can now be used.

ROUTINE MAINTENANCE INSTRUCTIONS

DAILY / INTERVAL

- 1) The filter in the solution tank **(FIG 3)** should be kept clean. It can be removed if necessary. A damaged filter should be replaced otherwise blockages and/or damage to the pump head and spray jet can occur.
- 2) Check the spray jet **(FIG 4)** for blockage and a uniform spray pattern. Remove jet and blow through to clean. Do not use a pin as this may cause damage to the jet.
- 3) Check and remove any debris or lint build-up from the vacuum head, brush, and brush housing.
- 4) Always wash out the tanks with clean water after use. To do this, pour clean water into the solution tank and spray through spray tip to clear chemical residue from the pump, lines, and spray tip. Allow the vacuum to run for a few minutes after use to aid the machine in drying out and to help prevent bacteria and odors.

FIG. 4

SOLUTION
SPRAY
JET

WEEKLY

- 1) Inspect hoses (unseen blockages sometimes occur), hose cuffs, and the rubber seal on the recovery tank lid. The main cable, plug, and switches should also be examined for damage.

NOTE: It is advisable to store the unit with the recovery tank lid removed.

CAUTION: THIS UNIT MUST BE PROTECTED FROM FREEZING. Damage from freezing could cause machine to malfunction.

ILLUSTRATED PARTS LIST

***NOTE - All tank parts except for solution tank and waste tank are interchangeable on all models.**

WARRANTY

The manufacturer warrants to the original purchaser that products manufactured are free from defects of workmanship and material, provided such goods are installed, operated and maintained in accordance with written manuals or other instructions for a period of 1 year from date of purchase on parts and workmanship. In case you as our customer, meet any trouble with your machine, contact your Powr-Flite® representative who will be happy to be of service to you and will take care of the warranty settlement.

NOTE: Alterations and changes made to the machine without written approval of the manufacturer and use of unapproved spare parts will not be covered by warranty.
